

Dear Friends and Colleagues,

It feels like ages ago when we went into the Circuit Breaker. So much has happened in such a short time. We hope you have stayed safe.

COVID-19 will likely be a long-term challenge and for the future of healthcare. At CIH, we were able to have one of our most productive months ever despite the Circuit Breaker. We feel privileged to have been able to continue working with our partners such as the hospitals under our NUHS cluster, public and private innovation agencies, and market partners throughout this COVID-19 crisis to facilitate the adoption of healthcare innovations especially given the speed of change.

1. COVID-19 INNOVATIONS AT A GLANCE

We've included a section on the innovations we have brought to the hospitals and dormitories during the Circuit Breaker.

- **Sensetime THUNDER E MINI**

Click on [image](#) to view the demo video at CIH

Sensetime Thunder E Mini is an AI facial recognition device designed to measure temperature accurately and efficiently. The AI component actively tracks the face and forehead using intelligent detection of 110,000 temperature points and collects the highest temperature area on the forehead.

- **LionsBot LEORAY Automated Disinfection Robot**

Click on [image](#) to view the demo video at CIH

Deploying LeoRay to disinfect surfaces by high concentration UV-C radiation, offers tremendous risk reduction of exposure to virus infections and prevents viral transmissions.

- **RoboSolutions TEMI The Personal Robot**

Click on [image](#) to view the demo video at CIH

A remote-controlled and voice-activated personal assistant robot which let doctors and nurses communicate with patients via a screen mounted on wheels is also capable of recognizing and following people around the hospital wards, making video calls, replying to user questions, playing music, or carrying small objects from room to room.

2. CIH'S CO-INNOVATION COMMUNITY UPDATE

This month, we shine the spotlight on **INTERHEALTH INNOVATORS**, that recently joined as a member of our co-innovation community. CIH and IHI signed a cooperation agreement in a formally-organised ceremony on July 15, 2020, marking a milestone in our partnership. IHI is a start-up formed by a group of Medical Students that provides lessons, mentorship and project guidance to post-junior college students who are looking to pursue health related careers.

CIH is delighted to seal this partnership, collaboration and friendship with IHI to:

- Nurture the next generation of innovators
- Increase pipeline of healthcare innovation ideas
- Strengthen innovation ecosystem in CIH

3.

UPCOMING EVENT SPOTLIGHT

These are the events CIH has curated together with our partners. We encourage you to share those informational events with your friends!

Click on [individual link](#) for more details.

JUL	<u>29-30 Jul: CHI Innovate 2020</u>
AUG	<u>4-6 Aug: EmTech Asia 2020</u> <u>27-28 Aug: Asia Investment Conference Singapore Summit 2020</u>
SEP	<u>2-4 Sep: 6th Annual Asia Healthcare Week</u> <u>3 Sep: JUMPStart Annual Huddle</u> <u>9-11 Sep: Medical Fair Asia 2020 (MFA 2020)</u> <u>13 Sep: [STAT] 2020 Health Tech Summit</u>
OCT	NA
NOV	<u>9-13 Nov: Singapore Week of Innovation & Technology 2020</u> <u>24-25 Nov: AgeingAsia 2020 - 11th International Ageing Asia Innovation Forum & Expo</u>
DEC	<u>1 Dec: [CORE] Workshop - Regulation of Software As a Medical Devices</u>

Calendars are collated to be best of our knowledge. Events and dates may be subject to changes by the event organisers.

In the meantime, you may like to follow us on [LinkedIn](#) and [Facebook](#) for latest news and innovation updates.

Our best wishes to all to stay safe and healthy.

Lawrence
